

# Situational Leadership® II

## Open workshop | 8 - 9 October 2015

Blanchard International Serbia, invites you to be part of a unique training experience by attending a two-day Situational Leadership® II workshop, to be held 8 & 9th October 2015, from 9am to 5pm, in Belgrade, in Serbian language.

### What is it?

Situational Leadership® II or SLII®, is the most comprehensive, up-to-date, and practical method for effectively managing and developing people in the world. It is a prime enabler for developing an organizational culture focused on High Performance. It is a model and at the same time a tool-box for:

- Developing high achievers, individuals with high productivity and commitment;
- Opening-up communications focused on performance;
- Honor difference and leverage it to the benefit of the organization;
- Connecting different leadership elements: task giving, developing, motivating and monitoring.

### To whom it is addressed?

To managers and supervisors at all levels

### Which skills will you develop?

Participants will develop the following skills:

- Diagnose correctly what their people need in order to achieve any given goal or complete any given task;
- Choose and use comfortably the right leadership style, i.e. the way of giving tasks that matches assessed development levels;
- Conduct effective one-on-one discussions, focused on the performance of their people and their needs, to help them accomplish agreed goals.

Demonstration of the above skills at the work place will **result** in the following outcomes:

- Increase in the productivity and the engagement of people;
- Development of a strong "bench", individuals ready to take on successfully more responsibilities;
- Freeing supervisors time from extinguishing the day-to-day "fires" so that they can focus more on a better tomorrow, shifting their time from tactics to strategies;
- Improved talent retention rate.
